**Microsoft office, Visual studio, adobe premiere pro**

## PROJECTS

<b>Hospital management system</b> Product worked entirely from the user's (or customer's) perspective and not from just a developer perspective It was developed to be a user-friendly GUI entirely using python.	<b>December 2022 – February 2023</b>
<b>Smart Lock University project</b> (Innovation Fest)	<b>February 2023 - May 2023</b>
Managed Team of 3 as Project Team manager. When working on this project I deduced that by creating a new cloud data architecture, our data processing time can be reduced by 50%, resulting in more immediate insights. This lead to our lock connecting with the application we programmed more effectively.	
<b>Personal website that will display all Projects</b>	<b>August 2023 – Present</b>
Currently developing user friendly and interactive website that will display all past and current projects.
